

## Doric Solar Fund Pays Bonus Distribution

At the close of 2016, the Doric Solar Provence fund paid a bonus distribution to investors in the amount of 2 percent.

The fund was launched in 2010 and has invested in two solar parks in Provence, France. To date, the fund has paid out annual distributions of 8 percent to investors.

In the past, both solar parks attained higher feed-in proceeds than forecast. In addition, a different financing model than originally described in the prospectus has been used, resulting in improved liquidity of the fund in general.

Thanks to these positive developments, investors received a total of 10 percent in distributions in 2016.
