

# VESTINAS ISSUES NEW BOND

**Press Release | 2 October 2018**

Offenbach – Vestinas has issued a new bearer bond Gesundheitszentren Berlin (ISIN DE000A2NBKV0) on 1 October 2018. The interest rate is 5% p.a.

Due to the overwhelming demand and success of the first Doric bond with an issue volume of EUR 2.5 million, Vestinas is now bringing an issue volume of EUR 5 million to market. The bond has a term of 5 years. The bonds can be signed on [www.vestinas.com](http://www.vestinas.com).

Vestinas Managing Director Bernd Reber on the new bond: "We are delighted to offer a bond with the valuable collateralisation of three healthcare centres in the German capital. As with the Julianapark bearer bond, this is a securities issuance so investors simply subscribe to the bond online. It is then booked into their custody account with no time-consuming identification procedures necessary since the investor's custodian bank already has all relevant details. What's more, investors don't have to worry about any ongoing administrative fees as is the case with fund investments. This makes investing in real assets easier. And keeping track of different investments in real assets is no issue any longer as investors now get regular securities account statements from their deposit bank."

## About Vestinas

Vestinas is Doric's online subscription tool. Doric offers tailored investments with a focus on aircraft and real estate. Doric currently manages real assets with an investment volume of USD 9 billion.
